[Top 10 Battery Manufacturers in Europe \(2026 Ranking & Guide\)](#)

By 2026, the continent is projected to host over 250 new battery factories, driven by the European Battery Alliance's initiatives, surging EV demand, and the push for localized supply chains.

[Battery manufacturing in the EU: From hope to crisis to hope again?](#)

Can Europe still achieve its ambitions for battery manufacturing? To answer this, the article looks at data from Eurofound's European Restructuring Monitor and explores what recent

[Inside Volkswagen's European Battery Cell Factory](#)

Volkswagen (VW) Group's PowerCo is designing, developing and producing battery cells entirely in Europe for the first time. The company expects 50% of its unified cell batteries for EVs to

Top Battery Manufacturers in Europe

In this article, we will delve into the top 10 battery manufacturers in Europe, exploring their recent developments, market share, and contributions to the region's battery industry.

'Battery Atlas 2026' maps Europe's cell, pack and battery manufacturers

The report features detailed listings of companies across the battery ecosystem, including battery cell manufacturers, module and pack producers, equipment suppliers, battery quality

[Top 10 Battery Manufacturers In Europe In 2025](#)

This article introduces the top 10 battery manufacturers in Europe in 2025, covering their company backgrounds, key products, and recent developments, offering a quick overview of these

[List of Top Lithium-Ion Battery Manufacturers in Europe \[2026 Guide\]](#)

Explore the top lithium-ion battery manufacturers driving Europe's energy transition in 2026. This guide highlights leading players-EVE, CATL, Saft, VARTA, and Lyten-alongside key

Building a European battery industry

For Europe, the establishment of a complete domestic battery value chain is imperative for a clean energy transition and a competitive industry. The industrial development programme of

[Where are the Gigafactories for batteries in Europe?](#)

In the EU alone, there are 38 battery production plants. If we also consider Russia (1), Turkey (1) and the UK (2), the total number of factories rises to 42. Returning to the EU, battery

European Battery Tracker

The European Battery Tracker is an interactive tracker and map of manufacturing projects that are part of the EV supply chain across Europe. It aims to provide a comprehensive and up-to-date overview
