WHA 76.2 "Integrated emergency, critical and operative care for universal health coverage and protection from health emergencies," passed with unanimous support during the 76th

Solutions for energy storage systems (ESS)

The successful global experience of implementing storage systems is about 0.5 GWh for 2020-2021 and will be increased to 1.5 GWh in 2022. A number of pilot

[WHO launches new country guidance for health emergency coordination](#)

The World Health Organization (WHO) has released a comprehensive guide, the National Health Emergency Alert and Response Framework, to help countries strengthen their preparedness

[Dubai's 250 MW/1,500 MWh pumped-storage project](#)

Dubai Electricity and Water Authority's (DEWA) Hatta pumped-storage hydroelectric power plant is now 74% complete, and it is expected to

Basic Emergency Care

The Basic Emergency Care Course (BEC) is a joint WHO/ICRC/IFEM learning programme for first contact health workers who care for patients with acute illness or injury. BEC teaches a systematic

Emergency & Critical Care

The Basic Emergency Care Course (BEC) is a joint WHO/ICRC/IFEM learning programme for first contact health workers who care for patients with acute illness or injury. BEC teaches a

[UAE Solar and Energy Storage Projects 2026 , Latest UAE PV](#)

The United Arab Emirates is further strengthening its position as a global leader in renewable energy, with major solar and energy storage projects advancing rapidly in April 2026.

[DEWA's Clean Energy Storage Boosts Dubai's Energy](#)

DEWA has not only completed notable energy storage projects but also has plans for a comprehensive energy storage system using electric

[The Future of Battery Energy Storage Systems in the](#)

One promising solution to address these challenges is the use of Battery Energy Storage Systems (BESS). These advanced technological

[Emergency Energy Storage Solutions in Dubai: Powering a](#)

This article explores how emergency energy storage power supply production supports Dubai's vision for sustainable urbanization while addressing industrial and commercial energy demands.

[Powering the Future: The Rise of Energy Storage in the](#)

Central to this transition is the development of advanced energy storage solutions, which address the intermittency of renewables and ensure a

[Cummins Battery Energy Storage System \(BESS\) commissioned in](#)

Learn more about Cummins Battery Energy Storage System (BESS) commissioned in Dubai from Cummins, Inc., an industry leader in reliable power solutions for more than 100 years.

[WHO scales up emergency response in earthquake-hit Myanmar.](#)

Intensifying support to earthquake-hit Myanmar, the World Health Organization (WHO) has provided nearly 100 tons of medicines, medical devices and tents so far, and is assisting in

Emergency and critical care

WHO / Yoshi Shimizu A WHO field staff talks to a woman fetching water from a water catchment tank in Kiribati.

[Emergency Energy Storage Solutions in the UAE: Powering](#)

As the United Arab Emirates accelerates its transition to renewable energy, emergency energy storage systems have become critical for grid stability and disaster preparedness. This article explores
