

Energy Storage Power Station Project Financing

Overview

Title 17 Clean Energy Financing Program - Innovative Energy and Innovative Supply Chain Projects (Section 1703): Financing for clean energy projects, including storage projects, that use innovative technologies or processes not yet widely deployed within the United States.

Energy Storage Power Station Project Financing

[A new approach could fractionate crude oil using much less energy](#)

MIT engineers developed a membrane that filters the components of crude oil by their molecular size, an advance that could dramatically reduce the amount of energy needed for crude oil

[First Citizens Bank Serves as Lead Arranger on \\$250](#)

First Citizens Bank announced today that its Energy Finance business acted as co-lead arranger on a \$250 million financing on behalf of a

[MIT Energy Initiative conference spotlights research](#)

At the MIT Energy Initiative's Annual Research Conference, industry leaders agreed collaboration is key to advancing critical technologies amidst a changing energy landscape.

[How artificial intelligence can help achieve a clean energy future](#)

A look at how AI can be used to help support the clean energy transition by helping to manage power grid operations, plan infrastructure investments, guide the development of novel

[Study: Fusion energy could play a major role in the global response to](#)

Investigators in the MIT Energy Initiative and the MIT Plasma Science and Fusion Center have found that - depending on its future cost and performance - fusion energy has the potential

Long Duration Energy Storage Program

The LDES program, in part, leverages funding made available through the California Climate Investments initiative, and is aligned with its goals of prioritizing disadvantaged communities

[MIT engineers create an energy-storing supercapacitor from ancient](#)

MIT engineers created a carbon-cement supercapacitor that can store large amounts of energy. Made of just cement, water, and carbon black, the device could form the basis for

[Origis secures US\\$118 million in tax equity for California solar-plus](#)

US independent power producer (IPP) Origis Energy has secured US\$118 million in tax equity financing for the Chalan solar-plus-storage project in Kern County, California. The project is

[Making clean energy investments more successful](#)

New research emphasizes the importance of well-validated models and forecasting tools in evaluating choices for investments in clean energy technologies and policies by

governments and

[Explained: Generative AI's environmental impact](#)

MIT News explores the environmental and sustainability implications of generative AI technologies and applications.

ENERGY STORAGE PROJECTS

LPO can finance short and long duration energy storage projects to increase flexibility, stability, resilience, and reliability on a renewables-heavy grid.

[Energy , MIT News , Massachusetts Institute of Technology](#)

Massachusetts Clean Energy Center CEO MBA '12 Emily Reichert highlights the state government's unique approach to fostering and keeping clean energy innovation.

[Understanding ammonia energy's tradeoffs around the world](#)

MIT Energy Initiative researchers calculated the economic and environmental impact of future ammonia energy production and trade pathways.

[Next-generation geothermal energy: Promise, progress, and challenges](#)

The millimeter-wave drilling technology invented at PSFC and being commercialized by Quaise Energy is the highest-profile next-generation

geothermal innovation to emerge from MIT so
