

Latest photovoltaic sector breakdown

Overview

The community solar segment installed 1,435 MWdc in 2025, down 25% from 2024.

Latest photovoltaic sector breakdown

[Solar PV Market Size, Share & Trends , Industry Report, 2030](#)

A substantial decline in raw material prices and increasing production volumes have significantly reduced manufacturing costs for companies, leading to them offering solar energy solutions at

All News - pv magazine International

Latest news on the solar energy and photovoltaics industry in the USA: installations, manufacturing, markets & policy, and technology.

Spring 2025 Solar Industry Update

In 2024, between 554 GWdc and 602 GWdc of PV were added globally, bringing the cumulative installed capacity to 2.2 TWdc. China continued to dominate the global market,

Quarterly Solar Industry Update

Each presentation focuses on global and U.S. supply and demand, module and system price, investment trends and business models, and updates on U.S. government programs

Solar Supply Chain and Industry Analysis

Snapshot of photovoltaics - March 2025

After the 2022 price spike for solar photovoltaic hardware and battery storage, prices in both markets continued to decrease in 2024. Levelised costs of electricity for non-tracking solar photovoltaic

NLR's quarterly solar industry updates provide information on trends within the solar industry. These quarterly updates cover an array of photovoltaic module and system technologies as

[Solar Market Insight Report Q4 2025 - SEIA](#)

Photovoltaic (PV) solar accounted for 58% of all new electricity-generating capacity additions through the third quarter of 2025, remaining the dominant form of new electricity-generating

Trends in PV Applications 2025

Bifacial modules dominate the market, making up over 75% of production. Utility-scale systems accounted for about 62% of new installations, while distributed and prosumer markets continue to

The 2025 Solar Industry Survey

The data paints a picture of an industry that is still recovering from pandemic-related effects, with persistent concerns about inflation, rising interest rates, and tariffs promised by the new Presidential
