

# Photovoltaic bracket data directory

## Overview

---

View an interactive map or download geospatial data on solar photovoltaic supply curves.

## Photovoltaic bracket data directory

---

### [The U.S. Large-Scale Solar Photovoltaic Database](#)

The United States Large-Scale Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U.S. ground-mounted photovoltaic (PV) facilities with capacity of 1

### [Data and Tools , Photovoltaic Research , NLR](#)

NLR develops data and tools for modeling and analyzing photovoltaic (PV) technologies. View all of NLR's solar-related data and tools, including more PV-related resources, or a selected list

### [US Photovoltaic Database , Energy Markets & Planning](#)

Click on the image below or [here](#) to see the animated viewer.

### **Viewer , USPVDB**

The USPVDB Viewer lets you discover, visualize, and interact with the USPVDB through a dynamic web mapping application.

### [The Open PV Project: The real-time status of the solar photovoltaic](#)

The Open PV Project is a collaborative effort between government, industry, and the public

## Solar Energy , U.S. Geological Survey

The United States Large-Scale Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U.S. ground-mounted photovoltaic (PV) facilities with capacity of 1

## [Solar Resource Data, Tools, and Maps , Geospatial Data Science , NLR](#)

Find and download resource map images and data for North America, the contiguous United States, Canada, Mexico, and Central America. View an interactive map or download

## Dataset

that is compiling a comprehensive database of photovoltaic (PV) installation data for the United States.

## [Data and Tools , Photovoltaic Research , NLR](#)

NLR develops data and tools for modeling and analyzing photovoltaic (PV)

## Dataset

This dataset contains over two years of 1-minute resolution data collected from four floating solar sites, as well as data from a land-based PV system co-located with

This is a foundational data set for research and deployment of agrivoltaics, which is the co-location of agriculture and solar power plants on the same land. This
