[Ranked: Best And Worst States For Solar - Forbes Home](#)

California Nevada Utah Arizona Hawaii Colorado New Mexico Rhode Island Massachusetts Texas Coming in eighth place, Rhode Island has many homes powered by solar energy but only ranks 25th for affordability, bumping it down on our list. The state is fifth for the number of homes powered by solar energy and seventh both for the most solar generation per 100,000 residents and the percentage of energy run by solar systems across the state.
